

TIME TO LAUNCH.

BECOMING A PROJECT REVOLUTION PMP® STUDENT

THIS ISN'T JUST ANY PMP® COURSE.

It's a **Career Launch System** (and yes, a PMP® course, too).

You're not here to get another certificate.

You're here to increase your income. Build a respected presence. Land roles you dream of. It's all totally possible.

Let's jump in.

PROJECT
REVOLUTION

There are two extremes in PMP® exam preparation, and both fail the student.

Helluva way to start, huh? But it's an unfortunate truth. We've done the research, and we have the receipts.

See what we mean on the next page.

TIME TO LAUNCH | The Wrong Way(s)

OPTION ONE The \$49 DIY Course

It gets you 35 hours... But it's surface-level info you could find in blog posts or YouTube videos.

No strategy. No way to actually pass. And no way to lead projects or land higher-paying roles.

You're grouped with 100+ students, hoping your question gets answered.

And when it's over? **You still don't know** how to apply what you just learned.

Most students end up paying **even more** for another course; more time, more stress, and **more money**.

OPTION TWO The \$6,500 Bootcamp

They hit you with firehose lectures in a 2-day blur.

You're fried by the end — and no closer to understanding how to implement what you heard.

There's no practical application, no career support, no follow-through.

Cramming creates cognitive overload — **your brain can't retain it.**

Short sprints fail at long-term memory, and don't translate to real-world application.

It doesn't work. It's like paying to **forget faster.**

What you need is in the middle. So we built it.

Project Revolution is a **career accelerator built to help you pass, apply, and elevate** — all in one system. Our program features:

*Week-by-week breakdowns | Live expert support | Strategic coaching
Templates, tools, and facilitation methods*

Less than half the price. **10x the value.**

No more guessing what comes next. Follow a proven step-by-step path from confused to certified to career-ready. Built to fast-track your wins.

YOU DESERVE MORE.

Most PMP® courses charge **\$2,000 to \$4,500** just to help you memorize.

Those courses may help you get certified, but you'll still be guessing how to run real-world projects, perhaps underpaid, struggling to interview, and unable to clearly explain what you bring to the table.

The risk is looking like a "Paper PMP," not a project leader.

We built Project Revolution to change that.

Project Revolution bridges the gap between education and real-world application so you can step into real results, real roles, and real raises.

WE'RE READY WHEN YOU ARE.

And we'll guide you every step of the way.

Project Revolution could charge more. Our competition tells us so. But we're not really interested in that. We believe in making high-voltage project management training available, accessible and affordable.

Our PMP course is \$1,297.00, inclusive.

That's it. No hidden costs, no extra fees. Just the highest-quality project management training available. Learn the skills. Pass the exam. Land the job.

We believe in you, and we hope you'll join us.
